Description

Penthouse in Torrevieja is located in the prestigious Playa del Cura district just 250 meters from the sea and represents an exclusive offering in the Costa Blanca real estate market.

The main feature of this penthouse is the huge terrace of 76 square meters, which exceeds the living area of the apartment itself. Such terrace space opens up unlimited possibilities for organizing a relaxation area: you can place a dining set, sun loungers for sunbathing, a barbecue area and even a small container garden. The terrace becomes a full-fledged outdoor room that can be used most of the year thanks to the Mediterranean climate.
