246 m²

Description

Spain buy an Plot. Molins area — a plot of 246 m² in the municipality of Orihuela, located in the inland areas of Alicante province. This is a territory that is developing as a residential area with the possibility of individual construction. The plot is intended for those who are considering building their own home to specific requirements.

An area of 246 m² allows the implementation of a compact villa or townhouse project with a garden. Depending on local urban planning regulations, on such a plot you can build housing with an area of 80 to 150 m², keeping space for parking and a small green area.
