Description

Buy an Apartment in Torrevieja, Spain. Centro area, 5 bedrooms, 212 m² — a listing that stands out from the typical offerings in this coastal city. A five-bedroom apartment of this size in the heart of Torrevieja is an uncommon find, suited for buyers who need generous living space without sacrificing a central location. Most apartments available in the city centre fall in the two-to-three bedroom range with considerably less floor area, making this property a notable exception.

The layout features five separate bedrooms and three bathrooms spread across 212 square metres. This configuration supports a range of living arrangements:...
